

Everyone Needs Water and Water Hires Everyone.

STEM SPEAKER SERIES

Tuesday, October 30, 2012

1:30a.m.-2:45p.m.

Academic Building 3-121

SPEAKER

Sean D. Osborne

Professional Engineer

Principal, OSD Consulting

Every day, each of us depends upon this country's advanced water and wastewater infrastructure. And every day, thousands of engineers, scientists, operators, mechanics, IT specialists, treasurers and customer service personnel work to maintain, repair and improve our water infrastructure. This presentation will illustrate one civil engineer's perspective on how this professional community operates and how you can have a successful career in it.
